Tuesday 3rd November 2026

LQ: Can I observe seasons and the weather?

As the year passes, regular changes occur in the weather. The cycle of weather changes and is divided into four parts, known as the **seasons**. The four seasons are autumn, winter, spring and summer.

Autumn
(September, October, November)

Winter
(December, January, February)

Spring
(March, April, May)

Summer
(June, July, August)

What season are we in now?

Tuesday 3rd November 2026

LQ: Can I observe seasons and the weather?

Weather is the way the air and the atmosphere feels. It includes the outside temperature and the strength of the wind. It also includes whether it is raining, sunny, hailing, snowing, sleeting, foggy, or cloudy.
