

# ATTENTION AUTISM

**Attention Autism** is an approach designed by Gina Davies, Specialist Speech and Language Therapist.

It aims to develop natural and spontaneous communication through the use of visually based and highly motivating activities.

We have been using this approach on a daily basis at Winterbourne Enhanced Learning Provision and thought that you might like to try it at home.

Below are two links that will take you to videos of Gina Davies demonstrating how to use a whiteboard and how to do Bucket Time at home.

Video 1. Drawing and getting the Message across
