Egg drop challenge

The egg drop project is such a fun way incorporate critical thinking and problem solving into a fun science activity for kids, and it's great for a wide variety of ages.

Experiment:

The challenge is to create a container that will protect an egg from breaking from a high fall. You can make this challenge as simple or complex as you want. This will depend on the amount of time you have and the ages of kids taking part. It's always one of the most memorable experiences for students each year!
