

Science experiment

10.07.2020

Leaf detective:

How many of these native tree leaves can you find on your daily walk or in your garden?

Tick them off, draw them, or collect fallen leaves as you go.

Science experiment

Science talk:

- What is the same/different about the leaves you have found?
- Can you sort them into different groups?
- What do you notice about the structure of each leaf, why do you think that is?
