

Year 2 Newsletter

Friday 5th February 2021

New way of learning

We hope that you are all well and have adjusted to the new way of learning. We realise it is a very anxious time for everyone but please be assured that the staff at Winterbourne are all here to help you through this difficult time.

Remote Learning Messages

Zoom Meetings – Our daily zoom meetings begin at **8.45am**. These meetings serve as our register. It is an opportunity for your child to speak to their teacher and peers. Please be prompt when arriving to these meetings and ensure your child is in a quiet place to avoid background noise.

Teacher phone calls – Your child's class teacher will be conducting weekly feedback and wellbeing phone calls. These calls will come up on your phone as a private number or the school's number.

Children's learning – Continue to email your child's work to their class teacher daily, so that it may be assessed, as each child will be provided with end of year levels, even though the SAT's have been postponed. Please remember to write your child's name in the subject. We encourage learning to be through the school's online platform. Please refer to the online learning guide on the school's website if further support is required.

English

Next week, we will be finishing our information booklets on the Great Fire of London. Then we will be focusing on grammar; we will complete a grammar comprehension and towards the end of the week we will have a grammar test based on what we have learnt.

Maths

Next week, we will be looking at length and learning to measure in centimetres (cm). We will be finding out about metres (m) and then comparing and ordering lengths.

Words of the week

chaotic

This means: complete or total confusion or lack of order.

solid

This means: an object whose shape cannot easily be changed.

Our YouTube Channel

The year 2 team are working hard to prepare and deliver daily videos for the children. Each day there is an English and Maths video alongside daily story time videos. Within the week you will also see videos for Science, History, RE, Art, Computing, PSHE, Phonics, PE and SPAG Recap. Following each video is a task for the children to complete. These videos teach the vocabulary, knowledge and skills that they would be learning at school.

Have a question or a query?

If you wish to contact your child's class teacher or have a question, please contact us using the emails below.
