

Winterbourne Nursery and Infant School

Enhanced Learning Provision

Week beginning 28.06.21

This week we will blast off to explore outer space once again!

We will continue to share Rocket Countdown by Nick Sharratt.

We will be building rockets, making Martians and learning songs about rockets and flying saucers.

We will be working in pairs to make a moon buggy move along a tray by tipping it and we will be cutting with scissors to give a Martian a haircut!
