

**Enhanced Learning Provision**  
**Bond and Milne**  
**Week beginning 02.05.22**  
**Hello!**

Continuing our 'growing' theme, we will be creating a 'living island' by filling a large tray with compost and planting a variety of quick growing seeds such as chick peas, cress and mung beans. Once the seeds have sprouted it makes a brilliant landscape for toy animals, trucks or dinosaurs!

Maybe you could try this at home. Have a search in your larder and try different types of beans. Fill a tray with compost. Sprinkle seeds over and water. Keep the compost moist but not drenched. In a few days your living island will begin to grow.

We will also be focussing on mark making with pens and in different materials such as paint and shaving foam.
