## Enhanced Learning Provision Newsletter

Week beginning 09.05.22

Our new story is Jasper's Beanstalk. It is about a cat who plants a bean and tells how he cares for his bean. It also focuses on the days of the week, which we have introduced at circle time.

We will be watering our Living Island and noticing the changes, as well as planting beans and watering our other seeds.

We are encouraging the children to indicate that they would like a turn by saying "me" or patting themselves.

### WOW Week

We will send home some more labels so that you can share with us any of the new learning that you see at home.
