# Our Maths Learning Journey

Key vocabulary:

measure weight,  
capacity, volume,

2s, 5s, 10s,

pattern, sequence,  
counting, groups,  
pair, unequal,  
share

3 Complete this table of doubles.

Number			3		5	6	7	8	9	10
Double	2	4		8						

*Let's count in 5's*

<https://www.youtube.com/watch?v=5FaBDqOmiyl>

*Let's count in 2's*

<https://www.youtube.com/watch?v=eTCcqQxT5Gk>

*Let's count in 10's*

<https://www.youtube.com/watch?v=Ftati8iGQcs>

L.Q. Can I share groups equally?

## Steps to success

- I can count in pairs
- I can count in groups
- I can share groups equally

# Star words

## groups

5's

equal groups

10's

2's

TPs- What does the word equal mean?  
What does the word unequal mean?

Count the sheets in each pile of paper. Count the books in each pile.  
Which group is equal/unequal? How do you know?

TPs- What can you notice about these **groups**?

Each group has the same amount of **2's**, **5's** or **10's**.

TPs- Can we share these apples **equally** into **groups** of **2** ?

TPs- How many apples are there altogether?

TPs- Can we share these apples **equally** into **groups** of **5** ?

TPs- How many apples are there altogether?

TPs- How many apples are there altogether?

TPs- Can we share these apples **equally** into **groups** of **10** ?

When working with larger numbers or amounts, it is better to *group them in 5's or 10's to make it easier to count?*

TPs- *What number should you group in 2's, 5's and 10's?*  
Explain why?

30      8      25      14      50      4

Remember the number patterns.

Self assessment

Do you understand how to  
make equal groups by sharing?   

## Your task

Working in pairs and using concrete objects: Using these numbers on the board make **equal groups** of **2's, 5's or 10's** from that number. **Are they equal groups? How many groups did you make?**

Tuesday 5<sup>th</sup> March 2024

How many packets of pencils?  
How many altogether?

LQ: Can I share groups equally?

Steps to success

- I can count in pairs
- I can count in groups
- I can share groups equally

# Star words

## groups

5's

equal groups

10's

2's

TPs- What does the word equal mean?  
What does the word unequal mean?

TPs- What do you notice about  
these **groups**?

TPs- What do you notice about these **groups**?

Each group has the same amount of **2's**, **5's** or **10's**.

TPs- Can we share these balls **equally** into **groups** of **2**?  
Why/why not?

TPs- How many footballs are there altogether?  
Can we share them in a different way?

TPs- Can we share these tennis balls **equally** into **groups** of **5**?

TPs- How many in each group?  
How many tennis balls are there altogether?

TPs- How many balls are there altogether?

TPs- How many groups are there? How many balls are in each group?

Self assessment

Do you understand how to  
make equal groups by sharing?

## Your task

Use the concrete resources or draw to make **equal groups of 2', 5's or 10's using the numbers below**. How many equal groups did you make? How many in each group?

4                      16                                      40  
24              10                      20                      50  
                    15                                      35

Remember when working with larger numbers or amounts, it is better to *group them in 5's or 10's to make it easier to count?*

5's

equal groups

10's

2's

Each boat represents a group.

How many red boats are there?  
How many people are there in  
each boat?

There are \_\_\_\_ boats.  
There are \_\_\_\_ people in each boat.

How many yellow boats are there?  
How many people are there in  
each boat?

There are \_\_\_\_ boats.  
There are \_\_\_\_ people in each boat.

There are 4 boats.

There are 2 people in each red boat.

There are 4 groups of 2 people.

There is 1 person in the first boat.

There are 2 people in the second boat.

There are 5 people in the third boat.

The red boats show equal groups.

The yellow boats do not.

Each glass represents a group.

How many glasses are there?  
How many ice cubes are added to each glass?

There are \_\_\_\_ groups of \_\_\_\_ ice cubes.

Look at the plates of cupcakes in A, B and C.  
Each plate represents a group.

Which show equal groups?  
Tell your friend why.

There are \_\_\_\_ equal groups of \_\_\_\_ cupcakes.

Self assessment

Do you understand what  
sharing equally means?

★ 2's, 5's, 10's, groups, equal groups ★

<p>1. Complete the sentences below.</p>	<p>2. Kim and Mo are having a picnic.</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <span>Kim</span>  </div> <div style="display: flex; justify-content: space-around; align-items: center;"> <span>Mo</span>  </div> <p>Who has made equal groups? Explain how you know. <u>Stem Sentence:</u> _____ has made equal groups because....</p>	<p>3. How can you share 14 stickers equally?</p>  <p>How many groups are there?</p>
---	--	---

1.

Are the groups *equal* or *unequal*?

The groups are \_\_\_\_\_.

The groups are \_\_\_\_\_.

There are \_\_\_\_\_ equal groups of \_\_\_\_\_ pencils.

Dan is drawing *equal* groups of 3. Finish the drawing.

06.03.24

L.O: Can I share groups equally?

Today I used concrete objects to practise making equal groups of 2's, 5's or 10's. I practised drawing pictorial representation to match the groups and explained how many equal groups were made.

Self assessment

Do you understand the tasks?

Thursday 7<sup>th</sup> March 2024

Can we count in 2's and 5's?

L.Q: Can I make doubles?

Steps to success

- I can find the double of a given number.
- I can explain what doubles are, using the appropriate vocabulary.
- I can use representations that I am familiar with to show doubles.

# Star words

doubles

groups

add

total

Today we are going to make doubles.

A double is a number or an amount that is twice as large as the given number or amount.

To work out doubles, we add the same number twice. We use the addition symbol (+).

<https://www.youtube.com/watch?v=OYWclXKzOJo>

Double 1 is 2

Double 4 is 8

2 + \_\_\_\_

TP: What is double 2?

TP: Double 2 is \_\_\_\_  
Because  $2 + \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Counting  
objects

Double 6

A dice

Number  
sentence

$6+6 =$

Number line

Let's explore different  
ways to find doubles.

*Let's play a game. I will roll the dice and count the concrete objects to match the number. You will help me to double it. Then you will draw the dots for the number that is rolled and double it.*

Challenge: Can you write the number sentence to match.

TP: Double \_\_\_\_\_ is \_\_\_\_\_

Children will need a whiteboard and a pen to practise.  
Adult to model drawing pictorial and abstract representations (number sentence).

Self assessment  
Do you understand how to  
compare weight?

# Your task

In partners, roll the dice and count concrete objects to match the number rolled. Then double it. To challenge yourself, draw the objects and write the number sentence to match.

Example:

$$4 + 4 = 8$$

Self assessment

Double \_\_\_\_\_ is \_\_\_\_\_

TPs: What do you remember about doubles?  
 How can we show our work?

$$7 + 7 = 14$$

$$\square + \square = \square$$

$$\square + \square = \square$$

*Let's count the dots on the butterfly's wings.  
What is the double?*

Double \_\_\_\_\_ is \_\_\_\_\_

$$\square + \square = \square$$

*Let's count the dots on the butterfly's wings.  
What is the double?*

$$\square + \square = \square$$

*Let's count the dots on the ladybugs back.  
What is the double?*

Double \_\_\_\_\_ is \_\_\_\_\_

$$\square + \square = \square$$

*Let's count the dots on the ladybugs back.  
What is the double?*

$$\square + \square = \square$$

Let's count the dots on the ladybugs back.  
What is the double?

$$\square + \square = \square$$

Let's count the dots on the ladybugs back.  
What is the double?

$$\square + \square = \square$$

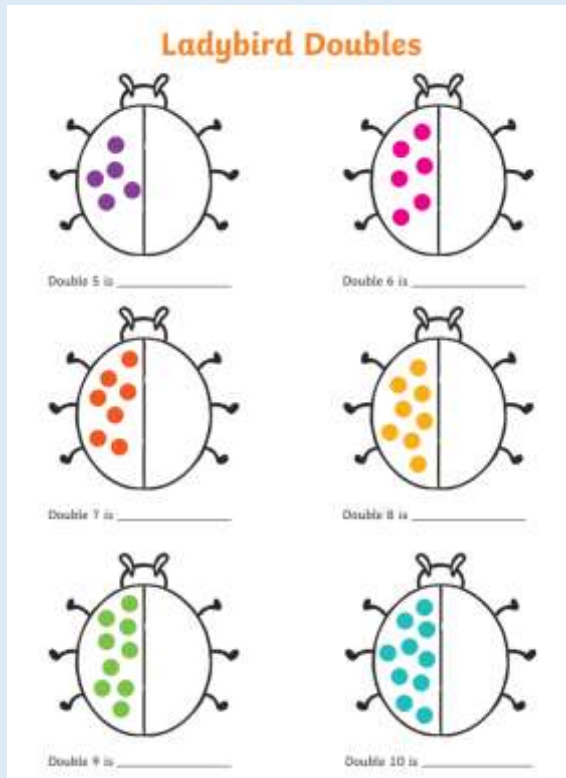

Double \_\_\_\_\_ is \_\_\_\_\_

Self assessment  
Do you understand how to  
compare weight?

# Your task

Count the dots on each ladybug. Draw dots on the blank side to double it. Use the stem sentence to explain your work.

Challenge:  
Write the number sentence to match?

Double \_\_\_\_\_ is \_\_\_\_\_

I know this because \_\_\_\_\_ + \_\_\_\_\_ = \_\_\_\_\_
