

PSHE

Week 2

LQ: Can I talk about changes?

Steps to success

I can start to understand the life cycles of animals and humans.

I can understand that changes happen as we grow and that this is OK.

L.Q. Can I talk about changes?

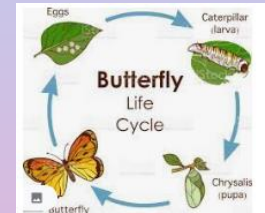

Star words

changes

life cycle

baby

adulthood

Calm me

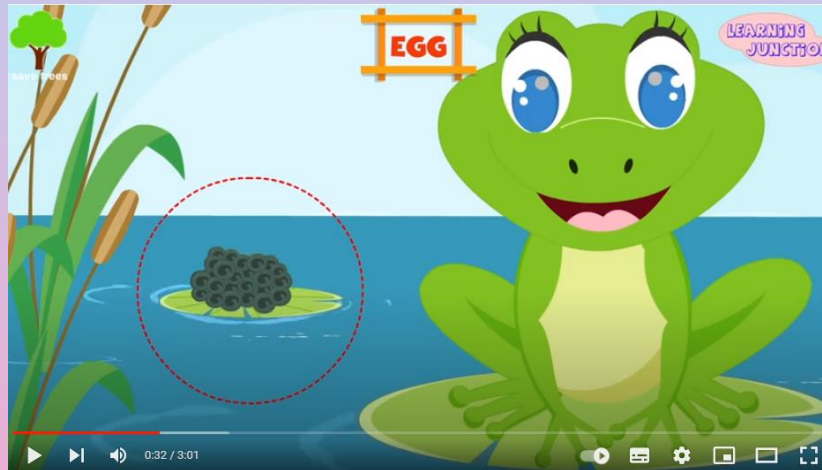

*Ring the chime . Stay silent so you
can hear the chime.*

*What thing that makes you happy
will you think of?*

TP: What changes can you spot?

What do you think happens and in what order?

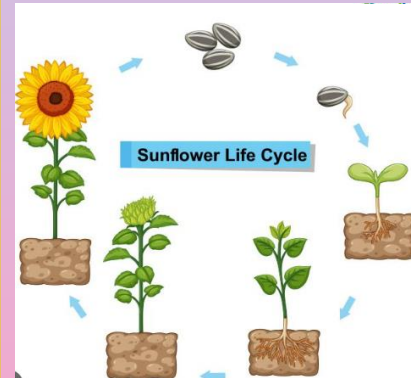

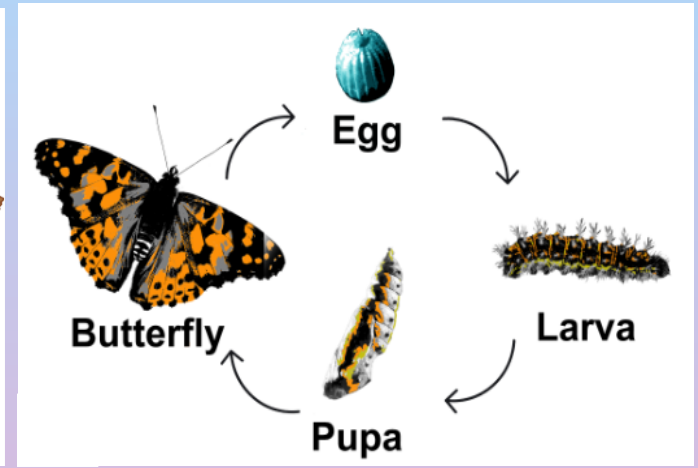

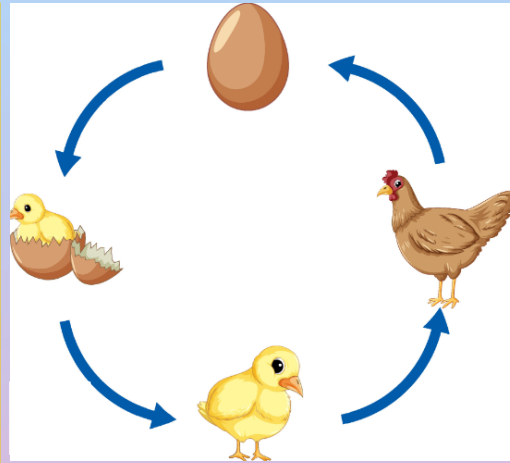

<https://www.youtube.com/watch?v=qjhK3H3N6jo>

Do we all grow up at the same rate?

How long does it take to grow up?

A life cycle is a series of stages a living thing goes through during its life.

All plants and animals go through life cycles. It is helpful to use diagrams to show the stages, which often include starting as a seed, egg, or live birth, then growing up and reproducing. Life cycles repeat again and again.

TP: What do you want to be when you grow up?

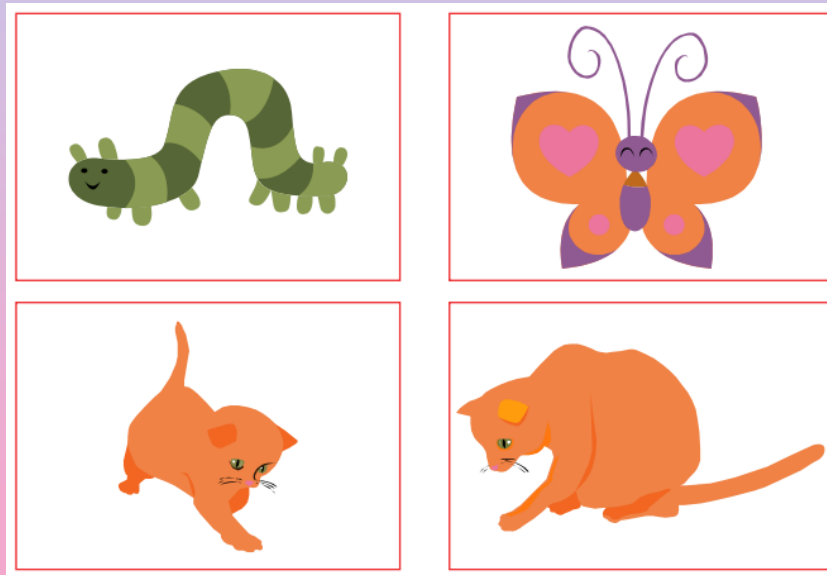

Self Assessment

Do you understand what a life cycle is?

Task

In groups to match off spring to the adult to show the stages of growth and development of each of the animals.

Self Assessment

Do you understand what to do?
