God

Christians, Jews and Muslims all have a creation story. They all believe that God (Allah) created the world in six days. They believe some of the **special** things God (Allah) created are:

Land

Plants and trees

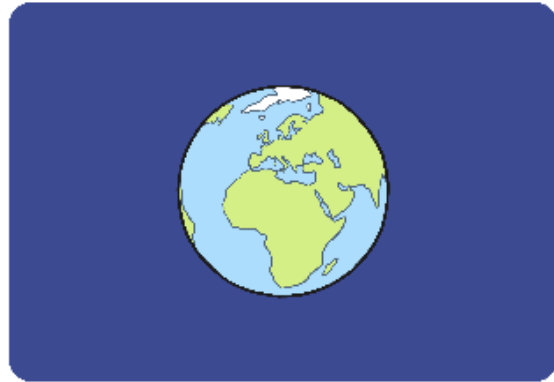

Sun, moon, stars

Animals

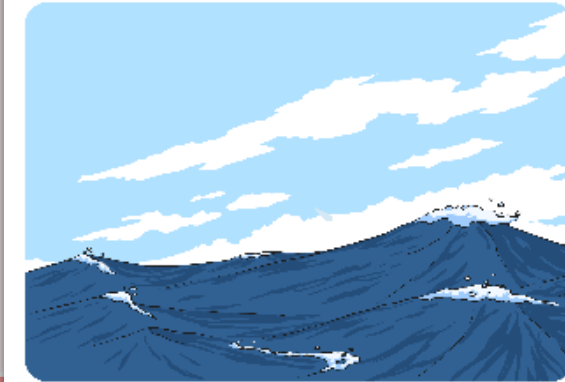

Earth and sky

Humans

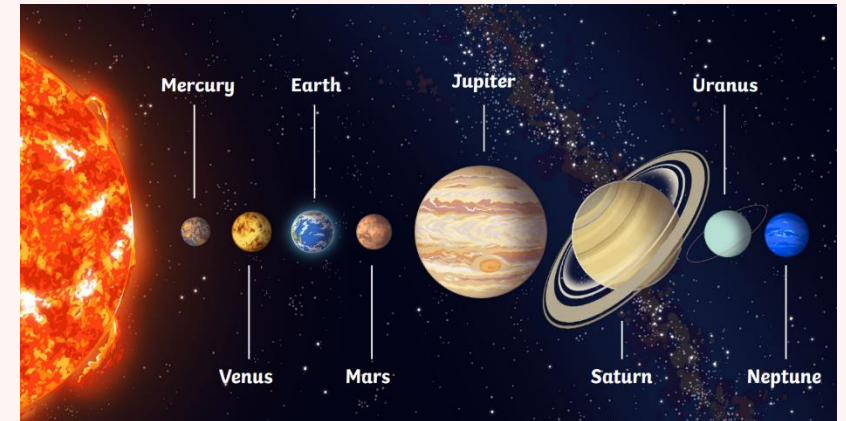

Seas

The Jewish and Christian account (explanation) is one narrative while the Muslim story is spread throughout the Qur'an.

Most humanists believe that the universe began with the Big Bang and the earth was formed 4.5 billion years ago from matter orbiting the sun.

The Big Bang is the idea that our universe started as a tiny, hot, and compressed point that exploded, expanding (increasing) rapidly to become the vast universe we see today.

Humanism is not a religion, it is more of a way of life. Humanists believe that we can live a good and happy life without following a god.
