Enhanced Learning Provision Newsletter

Campbell Class

Week beginning 5.05.26

Hello

We will be reading a new book over the next two weeks. We will plant peas and make a Living Island, with fast growing seeds and grasses, to make a landscape for our wild animals and dinosaurs in small world play.

The Tiny Seed

The children will do printing with vegetables and we will be making playdough flowers. During outdoor running, we will be listening to "Stop" and "Go" instructions.
